

Liquefied Natural Gas (LNG) Plant Solutions

For New Construction,
Maintenance and Expansion

Your ONE source for
forming, shoring, access,
scaffolding, insulation,
fireproofing and coatings.

BRAND SAFWAY™

At Work For You™

As demand increases for liquefied natural gas (LNG), there is a growing need to build, maintain and expand LNG processing plants and terminals. With our advanced safety practices and LNG-specific expertise, BrandSafway delivers efficient multiservice solutions designed to safely enhance productivity.

Access and Scaffolding

- › **BrandNet®** advanced engineering and access optimization program streamlines projects from planning through execution.
- › **Supported scaffold:** Sectional, Tube and Clamp, and **Systems™ Scaffold**
- › **QuikDeck®** Suspended Access System (pictured above and on front) allows multiple trades to perform safely, side by side in factory-like working conditions.
- › **Spider®** Powered Suspended Solutions
- › **SafCar®** Personnel Hoists and **SafTran®** Transport Platforms
- › **HAKE®** weather protection and mobile or stationary platforms

Forming and Shoring

- › High-capacity and versatile solutions for pedestals, blast walls, mat and pipe rack foundations, and more

Insulation Services

- › Maintains temperatures for LNG conversion and vapor transmission

Fireproofing

- › Mitigates hazards from methane, ethane, propane, butane and nitrogen gases

Coatings

- › Extends the life of assets – pipelines, tanks, trains and terminals

See how BrandSafway can help you improve safety, reduce equipment costs, save time and maximize productivity. Learn more at BrandSafway.com.
