

# RAPID-EPS<sup>®</sup> Elevator Protection

Protect valuables and  
control access with ease

- › Single-gate configuration
- › Secure, key-activated locking gate
- › Self-closing
- › No drilling required

Rapid-EPS Elevator Protection System offers security, safety and peace of mind without compromising efficiency. It assembles quickly, without penetrating the work surface, and secures multiple core openings in minutes to prevent falls, restrict access and protect assets.

# Your Elevator Protection Solution

Secure resources and control access

Rapid-EPS Elevator Protection System installs quickly to secure resources and control access to restricted areas. Its lightweight, yet robust proprietary design secures multiple core openings and allows access/egress while maintaining 100% tie-off.

## Features

- › Project-specific layout and design
- › Barriers and extensions can extend to slab height
- › Key-activated locking gate
- › Proprietary design allows access/egress while maintaining 100% tie-off
- › OSHA 1926.502 compliant

## Advantages

- › Quick and easy installation
- › No tools or drilling required
- › Will not penetrate or damage concrete
- › Can be installed by one person
- › Folds flat for storage and transportation
- › Engineered for safety and security
- › Rental and purchase options available
